

## Helpful Tips for Using Your CapTel Phone

### Changing the Way Captions Look

It's easy to adjust the way that captions appear on your CapTel display screen, setting a font size or color option that is easiest for you to read. Experiment with these different captions settings to find the appearance that works best for you personally.

**Font Size:** You can make the captions appear larger or smaller, depending on what is easiest for you to read.

**Font Colors:** Different color combinations for the font and background colors may be easier to read, depending on your vision and the environment where your CapTel phone is located.

**Scrolling:** You can set the captions to appear immediately word-by-word or to appear line-by-line in a continuous smooth scroll.

## CapTel Keeps Sports Commissioner in the Game

After losing hearing due to illness, Dave nearly gave up his role as Conference Commissioner out of frustration for not being able to talk on the phone. "I could hear some words, but it wasn't enough to make it a decent conversation," he explains.

Now that Dave relies on CapTel, it's game on! "You couldn't get me off the phone! I have no qualms about doing it now, because I can communicate."

## Assembled in America

All CapTel phones are proudly assembled in our corporate headquarter town of Madison, Wisconsin, using components from around the globe. Among other awards, our manufacturing facility has earned the prestigious ISO 9001 certification for exceptional quality and precision. Each CapTel phone is built using a combination of high-tech automated robotics along with hand-crafted assembly by a team of experienced technicians. We hope you take as much pride using your CapTel phone as we have in creating it for you!

FEDERAL LAW PROHIBITS ANYONE BUT REGISTERED USERS WITH HEARING LOSS FROM USING INTERNET PROTOCOL (IP) CAPTIONED TELEPHONES WITH THE CAPTIONS TURNED ON. IP Captioned Telephone Service may use a live operator. The operator generates captions of what the other party to the call says. These captions are then sent to your phone. There is a cost for each minute of captions generated, paid from a federally administered fund. No cost is passed on to the CapTel user for using the service.

CapTel captioning service is intended exclusively for individuals with hearing loss. CapTel® is a registered trademark of Ultratec, Inc. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc.
