

Hard to Read? Increase the Font Size!

Captions work best when you can read them at a glance. You can make the captions on your CapTel phone larger or smaller, to whatever size is easiest for you to read. The steps depend on which CapTel model you have.

CapTel 840 / 840i / 880i

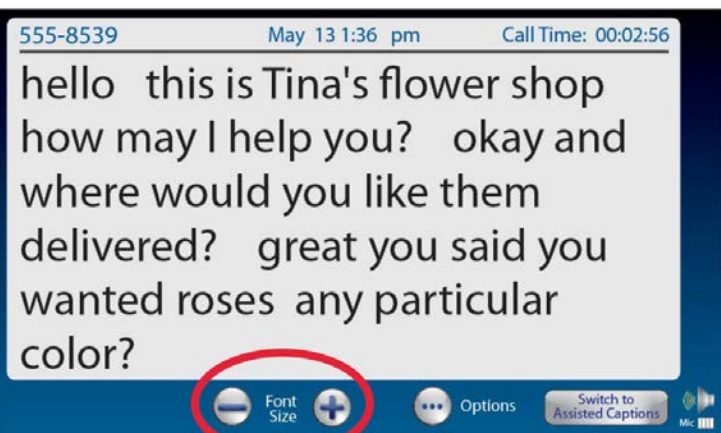

Before a call, press the YES button for the Options menu, then select Settings -> Display Settings -> Conversation Font Size. Use the UP and DOWN arrow keys to select the font size you want. Press YES to accept the new font size, then press NO to exit the menu.

National Do Not Call List

Unwanted calls can be a nuisance or, even worse, a scam attempt. To help limit unwanted calls, register your phone number on the National Do Not Call Registry. Established by the Federal Trade Commission (FTC) to protect consumers, the registry prohibits telemarketers from calling your phone number. It does not cover all unwanted calls, but it is a start.
