

Designed for people who have difficulty hearing over the phone.

CapTel[®] Model 800i

Combines the convenience of a telephone with the text capabilities of the Internet, showing you helpful captions during your phone conversations.

Be sure of what callers say – everytime – with the new CapTel 800i. This remarkable phone works like any traditional telephone, but it also connects to the Internet to show you written captions during your telephone conversations. You enjoy familiar telephone calls with the added benefit of captions – carried to your phone via the Internet.

Requires:

- High-speed Internet access*
- Telephone service
- Standard electrical power

* Depending on the set up, a router may also be required to connect more than one device to the Internet.

Benefits

- Captions appear automatically on all calls – incoming and outgoing. No need for callers to dial through the Captioning Service.
- Captions can be turned on or off at any time in a call.
- Large, easy-to-read captions window with adjustable font sizes and colors.
- Display screen tilts for comfortable reading or lies flat to mount the phone on a wall.
- Adjustable volume control (up to 40dB gain) for captioned calls. Volume button is easy to see and adjust during a call.
- One-touch access to *CapTel* Customer Service (speed dial button automatically connects you to *CapTel* Help Line).
- Easy-to-follow menu system with Yes/No questions.
- Phone Book allows you to easily store and dial more than 95 names/phone numbers.
- Speed dial keys for one-touch dialing of frequently called numbers.
- Caller-ID capable – shows you who is calling directly on display screen.

Captions are provided by a free service that connects automatically to every call.

Specifications subject to change.

With *CapTel* Model 800i

Your voice conversation is carried over a telephone line (RJ11 jack), while captions are carried over an IP/Internet connection (Ethernet jack).

Requirements:

- High-speed Internet access (connects to Ethernet jack).
 - A Router may also be required to connect more than one device to your Internet service.
- Telephone service (can be analog line, VOIP, FIOS, DSL or digital cable phone service. Cannot be cellular service.) Not compatible with PBX systems unless analog port available.
- Standard electrical power (AC adapter plugs into standard wall outlet).

The *CapTel* 800i provides IPCAPTELSM service in a traditional telephone format, using the Internet to provide captions of your telephone conversations. For more *CapTel* options visit www.CapTel.com.
